

EXIT

The signs of  
exit hang from  
the ceiling pointing  
the way you  
came in the  
way you will leave  
mute remnants of  
some man's unhappy  
design they laugh  
at you

some find the way  
other's lose it  
signs persist  
reading exit

If you put an S  
in the right place  
you get the reason  
exit signs exist

Feb 16 - Working in my fourth week of my interment,  
next Thursday it will be a whole month I've been here. So in  
30 some days I'll be an outpatient and just come up  
here to Day Care like going to school actually. If I  
find myself, or get some religious insight into myself I  
should be happy with the treatment. I don't know  
if that's what it should produce, but I'll be cooperating  
so I can get the fucking unconditional release.

But the people make it a lot of fun being here in  
Day Care so some people probably forget about leaving, but  
my freedom is so much more valuable to me so I'll be a hassle.
