I have found that I am all set up for phy ed, bowling,
and musical therapy, being most enthralled and in anticipation
of learning the operation of the uka-lay-lee, a fine and
noble old instrument.

I am starting to try to take a different attitude
towards people, giving less material goods, cigarettes,
etc, and not letting people use me as a fool or subordinate.
But still am unused to trying to be a leader, a role I
could probably fill if I understood how to amuse
the other kids and adults.

Things that bother me here are numerous, but I guess
you have to work around them. A top peave is the top 40
