

Deep inside until it lights
Frayed synapses in a psuedo-soul,
The decades of warped SIS programming
Comotions of emotions to glorify the
Cow goddess, sun king, man more than man,
The infinite sensat ons over hyper-finite
Intelligence, possible reactions
To slower than expected advances and
Immoral commercial greedy deeds leading to a
Glowing image of a classical humanity
Fixed like a bug underglass, so important and
Significant; it must be the logical
Answer,

The obvious solutions castrated into
Sensational aberrations, the true solution
Underlying a new controlled reality like
Membranes in an onion, the particles holding up
And annihilating the anti-particles.

And you cry to me
I am human, I am human
I am human

Rollerskating to oblivion, steamrolling
Progress screaming for more paperwork,
A more liberal outlook, a new lifestyle.
