

Need to expose you to the manifold
Duplicator to show you the futility
Of your dogma, and after the exposure
You will begin the mandatory use of the
Required chemicals you refused to ingest.
This program has been developed for your
Best interest as a human entity, and to quell
The rebellion possible in chemical rejection.
You will make your decision at this stage, and
Then be moved to the institution to acquire
The mandatory expertise. The developers
Will aid the field selection should
You find trouble in the diversity of the manifold.
Long reign the institutions, the
Protectors, Developers, and Providers for all!
