

9-27-80

Hilarity we could be allowed
This one hour to embraced be,
Feeding her true seeds of
Genius. And would it damage
The unseen fragile plan? The
Filmic ticks of clock relieved
From an ingrown belief locked in despair.
I don't care what your dictionary
Says hilarity was a woman's name
Hilary - with an it added, she was
It in a game of tag in the land
Of the Swedish fashion models
Somewhere on the compass removed -
It being the burden of the brighter Bohemia
Blue eyes and red trainman babuska.
Hilarity of the renaissance table
Globe replica, this monk in the
Picture prized her skull counting
On forthcoming clues on the inner
Contours hoping to apply Riemannian
Topography, storing a frozen incipient,
Counting up the possible donors.
If we could just this one hour
Allow hilarity to embraced be.
